# About US

Warner's Transport brings with it 27 years of dependable, on time and efficient service that uses leading edge technology, dedicated warehouse space and a versatile fleet of trucks, prime movers and trailers.

We understand how important it is for your business that consignments are transported, shipped, received, stored and managed with precision and efficiency. Warner's Transport prides itself on customer care, communication and commitment. At the same time we also recognise how important it to be flexible, professional and reliable.

Customer service has been the bedrock of our business over the past three decades.

Our dedication to top class customer service is matched only with our service delivery, stringent health and safety measures and our dedicated staff.

# Occupational Health And Safety

As a safety conscious transporter, we take care that all our staff recognise our moral and legal responsibility to provide a safe and healthy work environment for all employees, contractors, clients and visitors.

Warners Transport and Distribution employs professional, accredited drivers and staff who must adhere to written policies governing driver health, alcohol, drugs and all emergency procedures.

Our equipment, machinery and vehicles also fall under the scrutiny of strict and regular surveillance and maintenance at all times.

We ensure that we comply with legislative requirements and current industry standards. Ongoing training for all staff and drivers ensures safe and sound scheduling processes that allow our employees to have adequate breaks. We do not tolerate drugs of dependence of any kind amongst our staff and encourage our employees to keep themselves in sound health.

# Environmental Policy

## *Our commitment*

At Warners Transport, we value the wellbeing of our employees, contractors, customers as well as the communities in which we operate and the environment.

In conjunction with our Health & Safety aspects, we are committed to responsible management practices that minimise any adverse environmental impacts arising from our activities.

We comply with all statutory requirements, codes, standards and guidelines. Have staff with roles and responsibilities for Environmental management and provide enough resources to ensure this is a central part of the organisation. Ongoing Environmental education and training to all of our employees is provided coupled with regular reviews and discussions related to Environmental performance.

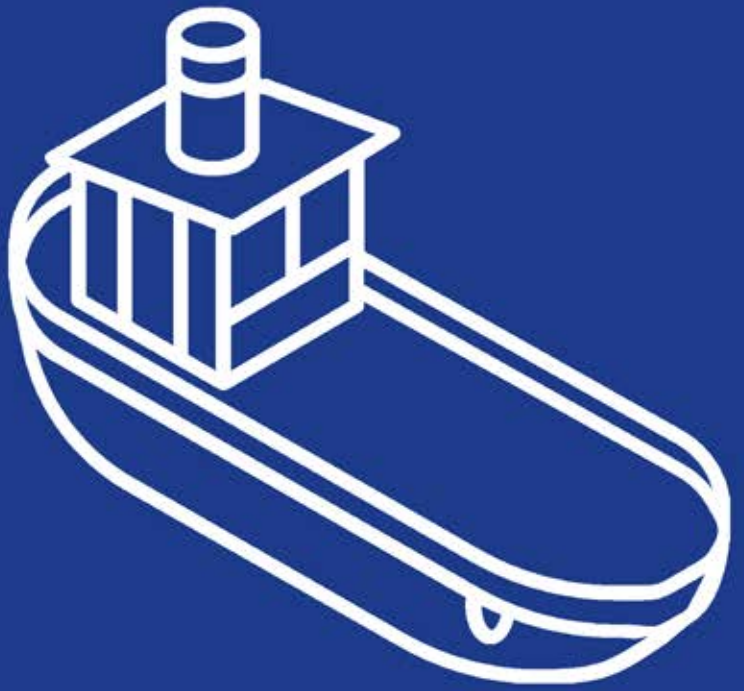

# Quality Policy

*Our commitment*

Our quality objective is to meet or exceed our customer requirements and expectations in a pro-active, professional and cost effective manner.

To ensure we maintain this level of quality. We actively set objectives and targets to measure our performance and identify opportunities for improvement. Our regular meetings ensure we continually review and improve our business processes.

We Actively seek performance feedback from our customers and address opportunities for improvement that are identified.

---

## Port Logistics

The concept of port logistics has greatly advanced in the last decade and operational involvement in this area has been at the heart of Warners Transport & Distribution business.

We have kept up with technology to offer our customers Container Cartage of 20' or 40' containers to and from the Fremantle Wharf, Kewdale Rail Head, regional zones and within all Perth Metropolitan range.

Every one of our port operators carry the MSIC (Maritime Security Identification) Card with access to all of the North Fremantle Berths.

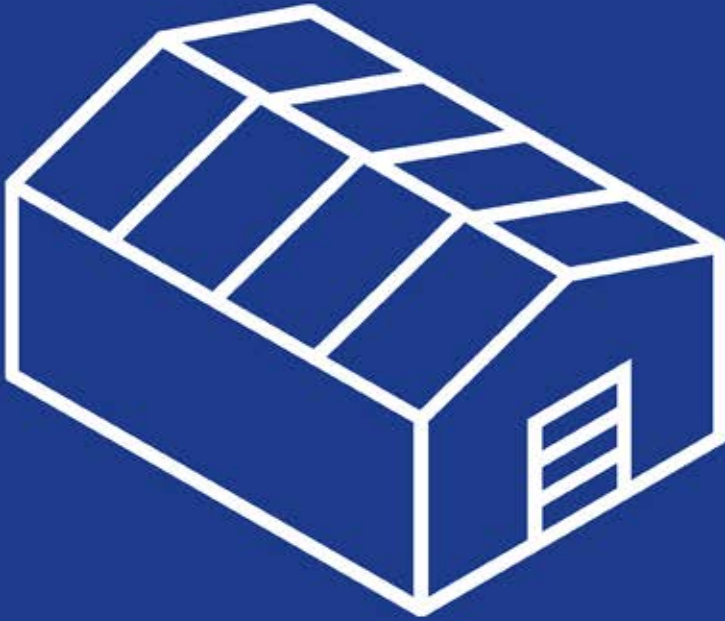

We have all the required gear like side lifters, skel trailers and reach stackers that enable us to perform any allocated tasks.

**Vessel Discharges** are undertaken with concise planning involving stevedores, port authorities, AQIS and service providers to ensure vessel turnaround is top priority.

Warners Transport provide transport supervisors through out each vessel discharge and offer 24 hour service to ensure trucks are under hook at all times.

---

## Warehousing

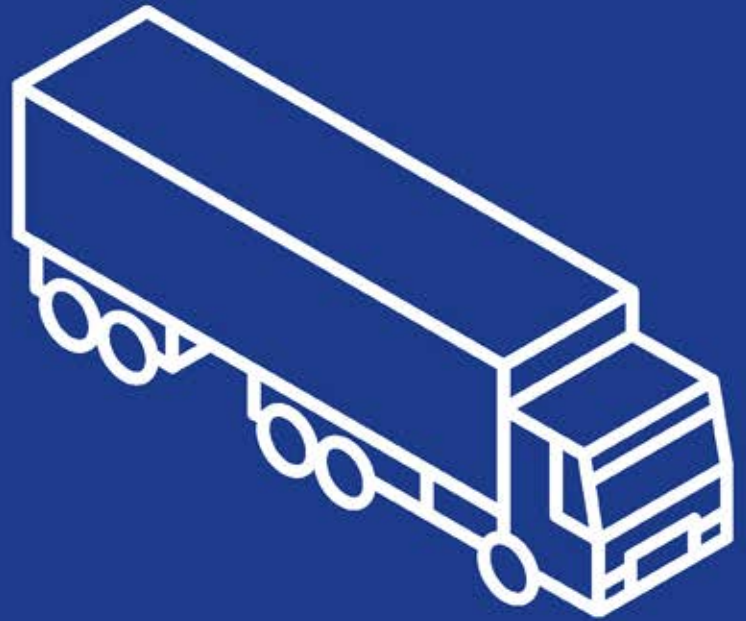

Gone are the days when warehousing just meant large dusty sheds lined from floor to ceiling with boxes sitting on shelves.

Our warehousing and distribution centres in Welshpool are structured for high efficiency and precision. Configured to not only hold loads in bulk, we can also accommodate high velocity volume flow to all dispatch locations. This is why Welshpool, one of the major industrial areas of Perth, is particularly convenient because of its proximity to the airport, major rail heads and the freeways.

Our warehouses are equipped with fully racked areas and bulk areas can be configured to suit a variety of products. Our warehouses are on a 24 hour monitored alarm with restricted access to warehouse areas from office areas.

## Road Freight

With over 27 years' industry experience, we are one of the top leaders in road transport and freight logistics in WA.

Every consignment matters – whether it is a few pallets or a full load. We want you to know that your goods are in safe hands at all times. All our operators are highly experienced in dealing with all types of cargoes and we provide customised services for full or part load transportation.

We have a fleet of the late model trucks, trailers and equipment. Our ability to move, break bulk or palletised freight throughout the Perth metropolitan area is second to none. Our staff are experienced in local distribution and specialize in LCL Freight into/out of consolidation firms / airfreight, retail and distribution centres.

## Mine Site and Hot Shot Deliveries:

Warners Transport & Distribution also have extensive operational experience in **Oversize and Over Mass** transport through Australia with a fleet of flat-bed trailers, extendable trailers and drop decks.

Current permits, QLD heavy haulage registration as well as strong relationships with pilot and police escorts, Main Roads and utility departments allow a seamless transport operation.

Warners Transport & Distribution pride ourselves on knowing exactly what is needed to move these heavy or over-size loads. It is our job to know what permits, licenses and pilot vehicles are required for your load and we have the knowledge and procedures in place to deliver best practice service.

---

# Project Experience

## **BHP Kalgoorlie**

*Over head gantry cranes*

Warners Transport & Distribution were engaged to collect a series of over head gantry cranes imported into Fremantle and transport to BHP Kalgoorlie. These oversize loads required pilot escorts to help negotiate the route and careful planning to meet offloading deadlines under crane hook on site.

## **BHP**

*Outer Harbour Project Port Hedland*

Warners Transport & Distribution were engaged to carry out vessel discharge operations for the carriage of oversize structural frames and equipment from Port Hedland Port to lay down over a number of shipments.

## **Woodside**

*Transport Services*

Warners Transport & Distribution was engaged to carry out various transport tasks on behalf of Woodside. From vessel discharges ex Dampier Port consisting of drill piles to ship spare and parts ex Fremantle to Dampier, Warners have carted items as small as a carton in hot shot services to oversize/ over mass drilling equipment.

## **Wheatstone**

*Pre-Works Transport Onslow*

Warners Transport & Distribution were engaged to conduct the pre-works transport for Bechtel for the Wheatstone Project. Freight movements consisted of general freight deliveries, site vehicles, personal effects and spare parts.

---

---

## **BHP**

### *Finucane Island Oversize Modules*

Warners Transport & Distribution were engaged to transport various over size modules from Henderson to BHP Finucane Island. Items varied in size up to 12m long x 7m wide x 7m high. Police escorts, Western Power line lifts and pilot escorts were utilised extensively on this project.

## **Roy Hill**

### *Accommodation units – Port Hedland to site*

Warners Transport & Distribution have been engaged to conduct vessel discharge operations at Geraldton and Port Hedland Ports to Laydown followed by transport to site of accommodation units measuring 14.4m x 4.4m wide. Over 120 units have been moved to date.

## **Karara Mine**

### *Structural Steel & Containerised Freight*

Warners Transport & Distribution were awarded the transport of fabricated steel and containers to the Karara Mine and Port project. Operations consisted of containerised and break bulk freight carted from Fremantle Port to Warners depots for unloads collection of pumps and drum reels from locations in Victoria and New South Wales, consolidation and transport to either Karara Mine Site or Geraldton Port Project.

Services throughout this project varied from daily general services to site, interstate services, hot shots, oversize and container cartage. Over 1800 loads were delivered.

---

## **WARNERS**

### **20m Pipe Transport**

*Yandi, Brockman, Telfer, Paraburdoo, Darwin, Tropicanna.*

Ph: (08) 9351 8225  
Fax: (08) 9356 2571  
23 Fargo Way, Welshpool, WA

Warners Transport & Distribution continue to provide project services to a number of long term clients servicing regional mine sites with transport of 20m pipe, tailing pond liner and associated equipment. Extendable trailers are heavily utilised within these projects as well as drop deck trailers and floats delivering site vehicles, excavators, water carts and other oversize equipment.

### **Wheatstone**

*Supply base transport for Dredging International Onslow*

Supplying the daily transport of required supplies of freight to meet the tidal movements and vessel requirements, from Perth/ Karratha regions to Onslow. Wide variety of freight shifted from 10kgs to 125 tonne items including items up to 7.5m wide.

### **Manildra Group**

*Local distribution, wharf cartage and unpacking*

For the last 15 years Warner's have provided Manildra Group warehousing, pick/pack, wharf collection and deliveries to Metropolitan Perth.
